

How to enjoy Happy Labor Days?

The global supply chain is creaking under the weight of increasing labor shortages. In such a situation, it is impossible to imagine Happy Days unless we find a steady and feasible solution to the labor shortage problem.

We're not going to get a larger workforce but there is a solution to the work dilemma.

A solution that reduces dependencies on labor availability while delivering customer satisfaction.

Happy Labor Days ahead.

73% of warehouse operators can't find enough labor

Labor crunch puts **\$8.45 T** revenue at stake by 2030 (kornferry.com)

Fulfillment is not an attractive option

61% warehouse workers are yet to fill open positions

213,100 warehouse-related injuries reported in 2020 alone

The truth is out. Workers aren't coming back to the warehouse.

Here's why:

The US has a birthrate of 1.7, in the UK it's 1.65

We need to minimize physical over exertion and eliminate workplace injury

Attrition is at an all time high

The warehouse is not seen as an opportunity to grow and up-skill

To attract talent, we need to modernize

A lack of competitive benefits and perks

Be real or be defeated.

Whether its your **day-to-day operations**, a **spike in the level of returns** or **seasonal peaks**, a lack of available labor can severely **disrupt the ability to meet key KPIs**.

48% of customers are likely to abandon their cart if you don't meet their deliver expectations.

Leading companies are enabling their warehouses and fulfillment networks with **automation technologies** and offering an **exciting career path** for new and experienced employees.

Today's automation technology can be **integrated** into your **existing infrastructure** with relative ease.
